

SOLAR ROLLER SHUTTER

SSR

Operation with solar energy

Extra heat and noise protecting panels

Factory-paired wall switch

3 YEAR GUARANTEE

APPLICABLE

- In public and domestic buildings
- In roof pitch range of 15-90°
- Designed to perfectly fit to Dakea windows regardless the roofing material

FEATURES

- The most effective solution against solar heat
- Excludes light completely

- Reduces the risk of burglary
- Gives you 100% privacy
- Ready-to-use solution, no additional work is needed
- io-homecontrol® compatible
- Can be installed at any time after the installation of the window
- Not compatible with high pivot roof windows
- 3 year guarantee
- Fully charged battery is able to manage 100 open and close cycles

MATERIAL

- Coated aluminium
- Double insulated aluminum slats for increased insulation and noise cancellation

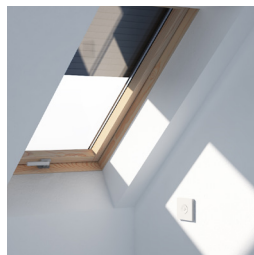

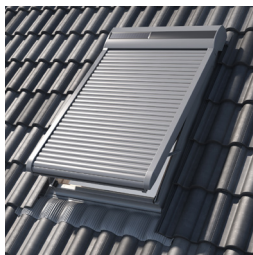

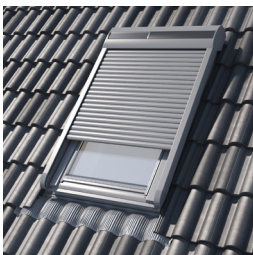

OPERATION

- Solar-powered, requires no additional electrical wiring
- Includes radio frequency wireless wall switch

- The wall switch allows the simultaneous and coordinated operation of multiple roller shutters with a single press of a button with one wall switch
- Solar shutter is not compatible with high-pivot windows (KHV, MOE, MOEVX)
