

TERMS & CONDITIONS

MONTHLY ONE ORDER REBATE – ELIGIBILITY RULES

Incentive period: 01/10/2026 – 31/12/2026

Rebate: 2%

Organiser: Altaterra Kft. (“Organiser”)

1. Who can participate

The Incentive is available to business customers (“Dealers”) who:

- have an active Dealer Portal account;
- purchase products directly from the Organiser or its designated local selling entity; and
- are eligible for the incentive in the United Kingdom.

The Incentive is intended exclusively for business customers and is not available to consumers.

2. Benefit

From October to 31 December 2026, place one order in each promotional month in the Dealer Portal to receive an additional 2% discount.

During the above period, the Dealer will receive **an additional 2% rebate on ONE order placed in each calendar month** and delivered according to officially communicated lead times. The rebate is additional to the Dealer's standard commercial conditions unless otherwise expressly stated by the Organiser.

3. What counts as the “ONE” order

The **ONE Eligible Order** means one of the qualifying orders successfully submitted through the Dealer Portal in a given calendar month. The order date and time recorded by the Dealer Portal determine which order qualifies.

Only **one order per Dealer/customer account per calendar month** may receive the Rebate.

4. Eligible orders and products

The Incentive applies to:

Products: All DAKEA products

Minimum order value: None

Order channel: Dealer Portal only

Orders placed through other channels, including e-mail, telephone or EDI, do not qualify unless expressly stated otherwise.

5. Application of the rebate

The Rebate will be calculated on the Dealer's applicable net purchase price **after standard contractual discounts and before applicable VAT/taxes**, unless otherwise stated. The rebate will be applied directly to the order.

The Incentive cannot be combined with other temporary promotions or special discounts. Rebate is not applicable for project orders.

6. Changes, cancellations and returns

If an Eligible Order is cancelled in full, the Rebate **will not automatically transfer to another order placed during the same calendar month**. For partially cancelled or returned orders, the rebate will apply only to products ultimately purchased and may be adjusted accordingly. The Organiser may correct rebates granted as a result of an obvious system, pricing or processing error.

7. Fair use

The Incentive may not be used through duplicate accounts, artificial order splitting or other actions intended primarily to obtain multiple Rebates. Where the Organiser reasonably identifies such activity, it may withdraw the Rebate concerned.

8. General provisions

Participation in the Incentive is subject to these Rules and the Dealer's applicable general trading conditions.

The Organiser may amend or terminate the Incentive where reasonably necessary due to legal, technical or material commercial circumstances. Any change will not adversely affect Rebates already validly earned before the change takes effect.

These Rules are subject to the applicable laws and mandatory requirements of the market in which the Incentive is offered.
